

82% or respondents felt that enforcement of current speed limits was needed. 72 additional comments were received that identified three key areas of concern:

1. Parking
Respondents felt that there was little enforcement of parking restrictions which only created additional problems in the town. Ignoring double yellow lines, parking on pavements and parking that obscured the view of those trying to cross the road were all cited.
2. Speeding
There were a number of comments about speeding vehicles during the day and evening. In addition, the quarry vehicles were cited particularly for their speed. Other comments reinforced the earlier survey response that speed limits needed to be enforced.
3. Pedestrian Crossings
There were several comments about the existing pedestrian crossing being in an unsafe place, with two respondents quoting near misses for accidents. In addition the area near to Tuffins was identified as needing a safe crossing point.

Roads

Respondents were asked how that felt about road maintenance issues in Cleobury Mortimer the results are shown at Figure 21.

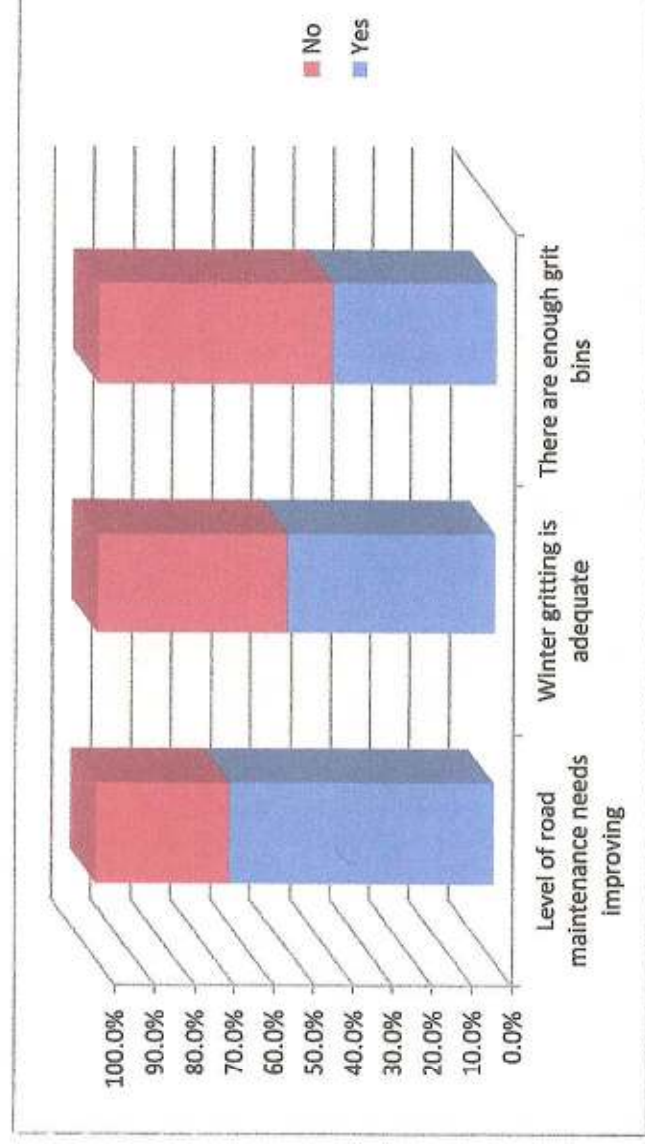

Figure 21: Respondents feelings about road maintenance issues

Figure 22 shows whether respondents felt there was adequate road access at all times for emergency services. Of the 134 who responded 'no', they were asked to give specific locations, which have been summarised as:

- High Street 44 comments
- New Road 20 comments
- Furlongs Road 6 comments
- Town Centre 6 comments
- The Hurst 6 comments
- Catherton Road 5 comments
- Pinkham Lane 5 comments
- Eagle Lane 4 comments
- Lion Lane 4 comments
- Around Junctions 3 comments
