Is there adequate road access at all times for emergency services

Figure 22: If respondents feel there is adequate road access at all times for emergency services in the town.

Bus Services

237 (59.7%) respondents stated that they never use any of the bus services. The remaining questions in the section were only answered by the 160 respondents who stated that they did use the services.

The chart at figure 23 shows how often respondents use the bus services.
